

Our **experience**

When Rob took on an office in a former signal box at Torquay train station, JMV were the company he called to help.

How long have you been working with JMV?

“I think we started working with JMV when soon after the business started, so it was about 10 or 11 years ago now! JMV was likely referred to me as a trusted IT company to use locally”.

What did JMV do to aid you in moving to the Cloud?

“I’m not very good at tech. They look after me. I’ve got 2 or 3 different companies under the Bold umbrella that they assist with. Any problem I get I pick up the phone and they’re good at helping me quite quickly!”

How did JMV help you with your move?

“Matt came out for half a day, he sorted my cabling, ensuring he’d left no mess behind! I was previously working from home, and they’ve made it possible to sync my laptop with my PC in the office so that I can work from either location.”

What benefits has the move made to your business?

“We know each other well, we work well together and understand each others way of working. They hold my hand!”
